EXPERIENCE

Grant Thornton Bharat LLP Gurugram
Consultant 30 June 2025 – Present

- Served on multiple engagements within **banking, financial services, and audit functions**, contributing to technology-enabled process improvements.
- Designed and delivered **enterprise-grade internal web applications and automation solutions** to enhance operational efficiency, data accuracy, and audit turnaround times.
- Developed robust systems to **extract, validate, transform, and analyze data** from **Excel spreadsheets and PDF documents**, significantly reducing manual intervention and operational risk.
- Built scalable platforms supporting **data reconciliation, rule-based validations, comparative analysis, and consolidated reporting** for audit and compliance workflows.
- Implemented **year-wise analysis, trend evaluation, and standardized reporting mechanisms** to support informed business and audit decision-making.
- Integrated an **AI-powered Copilot chatbot** to provide contextual assistance, data interpretation, and guided workflows for business and audit users.
- Implemented **MCP (Model Context Protocol) server integrations** to enable secure, governed interactions between AI models and internal enterprise systems.
- Collaborated with **cross-functional teams and stakeholders** to deliver **secure, scalable, and maintainable solutions-** , emphasizing reusability, performance, and compliance.

Webtechno software Jodhpur
Full Time 19-Feb-25 to 19-June-25

- Built and maintained backend systems using **PHP**, **Laravel**, and **XAMPP** to support web applications handling over **1,000 daily user requests**.
- Constructed robust MySQL database schemas, resulting in a 30% acceleration of data retrieval speeds across key modules and enhanced overall application performance, measured by monitoring software.
- Collaborated with senior developers to debug and test applications, resolving **bugs with 95% efficiency**.
- Contributed to the **end-to-end delivery of 5+ live client projects**, improving site performance and usability.
- Participated in daily stand-ups, code reviews, and sprint planning, enhancing **team collaboration and agile development practices**.
- Gained hands-on experience in **debugging**, **error tracking**, and **application deployment** within a live production environment.
